As a **Junior Frontend Developer** with **2.5 years of experience at Glomil Technology**, I have built a strong foundation in modern web technologies such as **HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, TailwindCSS, and TypeScript**. I am passionate about creating **user-friendly and visually engaging web applications**, focusing on **clean, maintainable code** and **responsive design**.

During my time at Glomil Technology, I contributed to several national-scale projects, including **GoTürkiye, Culture Route Festival, Atatürk Cultural Center (AKM), and Health Türkiye**. In these projects, I worked on **software and content development**, enhancing digital platforms and improving user experience through modern frontend solutions.

I am adaptable to evolving technologies and bring **strong problem-solving, teamwork, and project management skills** to every task. With a **solution-oriented mindset** and a dedication to continuous learning, I aim to deliver **high-quality digital experiences** that align with both **user needs** and **business objectives**.

## Profesyonel Experience

**internship**, Glomil Technology ✍

Sarıyer, İstanbul
